

# Advance Java

## Table of content:

### Introduction

- Building Generic Classes
- Creating Generic Interfaces
- Building Generic Methods
- Building Generic Classes With Different Types

### Sequential Collections

- The Collection, List, And Set Interfaces
- The Queue And Dequeue Interfaces
- The Arraylist Class
- The Hashset Class
- The Treemap Class
- The Priorityqueue Class
- Sequential Collections

### Associative Collections

- The Map Interface
- The Treemap Class
- The Hashmap Class
- Associative Collections

### Classic Data Structures

- Stacks
- Queues
- Binary Trees
- Classic Data Structures

### Sorting And Searching Algorithms

- Insertion Sort
- Bubble Sort
- Mergesort
- Quicksort
- Linear Search
- Binary Search
- Sorting And Searching Algorithms

### Exception Handling

- Exceptions Introduction - Uncaught Exceptions
- Try-Catch Statement
- Multiple Catch Clauses
- Try-Catch-Finally

## Database Programming With JDBC

- Installing MySQL On Windows
- Installing MySQL On Mac
- Installing Connector/J
- Connecting To A Database
- Querying Data
- Creating Database/Tables
- Inserting Data
- Updating Data

## Network Programming

- Working With URLs
- Socket Programming
- Socket Server Programming
- Client Server Programming
- Network Programming

## GUI Development With Swing

- A Simple Example
- Working With Text Fields
- Working With Buttons
- Working With Lists
- Working With Scroll Panes

## Multithread Programming

- The Main Thread
- Creating Threads
- Synchronizing Threads

## Java Applets

- Simple Applet Example
- Creating An Applet

## Java Web Applications

- Installing Tomcat On Windows
- Installing Tomcat On Mac
- Simple Servlet
- Java Web Applications

## JavaBean Programming

- Creating A JavaBean Class
- Creating A Beaninfo Class

## Advanced Java Input/Output (NIO)

- File Copying With NIO
- Working With Buffers
- Working With File Data

## Strings And Stringbuilder Class

- Problems With Strings
- Working With Stringbuilder Class

## Regular Expressions

- Introduction To Regular Expressions
- Creating Pattern And Match Objects
- Using Metacharacters
- Using Regular Expressions To Replace Text

## Java Graphics

- Drawing Lines
- Drawing Shapes
- Working With Color

## Using Eclipse

- Installing Eclipse On Windows
- Installing Eclipse On Mac
- Hello World
- Overview Of The Eclipse IDE
- Entering Programs
- Code Generation
- Debugging
